4. Add Device	1

1. Usage Notice

Dear Customer:

Thank you for choosing our products! For your convenience, please read the manual carefully and follow the steps in the manual.

2. Download APP

Download the app by scanning the QR code on your mobile phone, complete the registration and login, and allow all access rights to this app to get the best experience.

3. Connect Your Phone to Wi-Fi

Make sure that the mobile phone and the device to be connected are in the same Wi-Fi environment. Select the 2.4GHz Wi-Fi network on the mobile phone and enter the password to connect the mobile phone to the network. WIFI.

*Note: If the Wi-Fi in the current environment is 5GHz, please set the router to 2.4GHz first.

4. Add Device

1) Turn on the mobile phone Wi-Fi and Bluetooth, and enable location access, please make sure that the mobile phone Wi-Fi and Bluetooth are both turned on to obtain the best network configuration test;

2) Open the Huilian Smart APP on the mobile phone, and select "Home" in the bottom navigation bar;

3) Click the "+" button in the upper right corner of the home page, or click the "Add Device" button in the center of the home page to enter the device adding interface;

1

4) In the device adding interface, please try to add the device in one of the following ways:

A. Automatic device discovery

The phone will automatically discover available devices nearby. After discovering the device, follow the instructions in the figure below to complete the subsequent network configuration operations.
